I'm a second-year Cybersecurity student at Nova Scotia Community College, graduating in the coming months. I'm passionate about IT and security, with hands-on experience supporting users and troubleshooting technical issues. Outside of school, I do astrophotography—a hobby that's sharpened my patience, attention to detail, and ability to follow precise workflows. I'm motivated, dependable, and focused on building a career in cybersecurity.

EXPERIENCE

NOVA SCOTIA HEALTH Authority

Work term | Kentville, NS

2025 — 2025

Supported the deployment and replacement of computers and monitors, and provided fast, efficient technical support to staff by troubleshooting and resolving hardware and software issues as they arose.

****INDEPENDENT Grocer****

Freezer. | Berwick, NS

2024 — 2024

Restocked merchandise by moving inventory from the stockroom to sales shelves, collaborated with team members to maintain an organized store floor, and assisted customers in locating products quickly and accurately.
